

No 1 candidate Garry Connor

No 2 Candidate Angela Groves

In the Senate VOTE 1 Group H Send a Carer to Canberra

The **CARERS ALLIANCE** was formed to represent, at political level, carer families and people living with a disability, whether the disability is physical, cognitive, or brought about by the effects of mental illness, chronic illness or frail ageing.

Our role in the **Senate** will be to ensure that the issues affecting families and those people in need of care and support are given due regard and consideration, after being **neglected by all Governments** for many years. Carer families and people with disability must have the same opportunities to fully participate in the social, political, cultural and economic life of Australia. **With your support we can bring about change.**

Why Group H? Because we need:

1. A National Disability Insurance Scheme with choice of self-directed funding.
2. Federal Legislation that gives people with disabilities rights and entitlements to service and support.
3. Separately funded family-carer advocacy at regional and national level.

Remember, voting for the CARERS ALLIANCE in the Senate will not change the outcome of the election. The election will be decided in the House of Representatives (Lower House). However, a vote for CARERS ALLIANCE in the Senate (Upper House) will give carers and all people who are in need of care a voice in parliament.
